

Project Experience

Alcohol Clinical Guidelines for Aboriginals and Torres Strait Islanders

Dates

June 2005 – Sept 2007

The Project

Flinders University researchers developed a collection of guideline products for health care practitioners with Aboriginal and/or Torres Islander clients. The products update and build upon the National Recommendations for the Clinical Management of Alcohol Related Problems in Indigenous Primary Care settings and the Australian Guidelines for the Treatment of Alcohol Problems.

Client

- Department of Health and Ageing

Research Team

Charlotte de Crespigny
Amanda Tovell
